

**The Fourth Grade News**  
**Feb. 22 – 26**

Dear Ones,

What an awesome week we had! The class worked very hard and accomplished much. I am so very proud of them. Their curiosity is alive and well.

I wish to address the issue of times tables and division facts. Our fourth grade curriculum is developed with the assumption there has been mastery by students in this area when they begin fourth grade; now we should be able to use them with SPEED. First of all, if your student still is unsure of some math facts, please work on the memorization with them, because now we will be working toward being so sure of them we can utilize them much faster. There will be practice sheets that are timed in class and as homework.

I am expecting some awesome Bird Projects on Friday. I will give you a whole week break before I send home the next book report assignment. Wow!

Progress reports will come home this week. Be sure to contact me if you have any concerns regarding grades at this point.

Be sure your child has the needed amount of money to go to Mc Donald's (Min. \$5.00) for lunch for our field trip tomorrow.

With all that we must begin a super week!

Love,  
Mrs. Aram
