

Dear Room A Parents...

May 17, 2010

It was wonderful to see and talk to so many of you at Open House last week and share all the hard work and preparation the children put into creating a warm and inviting welcome. This year we had 100% representation of each child, and 100% projects submitted...on time!! I really appreciate the commitment this displays! Thanks so much to all of you who worked so hard to motivate and help put the inventions/projects together and capture just the "right bug" for our Busy Bug Zoo!—the insects have been a source of real fascination and learning. It has been so fun to see the great bank of creativity as each child is able to share their project/invention and walk us through the 5 step process we have learned for successful completion. I also appreciated the amazing performances with most of our class involved at the Talent Show on Saturday!! Thank you all for your support and wonderful coaching!!

This week we will complete our study of insects and bugs and continue our final science unit on space, particularly our solar system. We'll be working on some fun art projects about being in space. Here's what else we'll be doing this week:

PHONICS, READING, WRITING and COMPUTER

Return to our normal reading / seatwork pattern—including writing on space Moms...you're welcome back on your day ☺ YEAH!
